REDUCE HARDWARE COSTS

Our flexible hosting plans allow you to use the Full EMR software capabilities as a service without needing to invest in expensive equipment and operations.

ZERO MAINTENANCE

Your setup is located at our Class A Data Center, which has 24hr monitoring, where we perform preventive maintenance and required upgrades.

NO HIDDEN COSTS

All of our fees are inclusive, which means you will never need to worry about paying additional peripheral expenses. This will also result in lower operational costs.

CONTRACTS

There are no heavy contractual obligations to use our service. We work with you as a partner, and not as a vendor, to provide you with quality service at a great price.

REDUNDANCY

Our Data Center has redundant technology - Internet, power, climate control, servers, routers, switches, virtual servers and backup - that ensures maximum uptime for you.

ACCESS FROM ANYWHERE

Your data, along with being safely secure, can be accessed from any vintage point and from any platform that you use, such as desktop, laptop, etc.
