Turn your office into an Electronic Medical Office (EMO) with SuiteMed IMS, version 14, is a CCHIT Certified® 2011 Ambulatory EHR. SuiteMed IMS also meets the ARRA stimulus incentive requirements as an ONC-ATCB 2011/2012 Certified Complete EHR for eligible professionals.

SuiteMed IMS was created specifically with your practice's needs in mind. With over 200 employees and over ten years of experience developing and implementing practical and innovative software solutions, providers trust and rely on SuiteMed and their local support network of authorized partners. These partners are in your neighborhood and understand your local health care needs.

SuiteMed IMS is HIPAA-compliant and features a single database, fully integrated EHR / PM system. The specialty specific templates in SuiteMed IMS can be customized to meet your unique practice requirements while streamlining the billing process to improve cash flow. SuiteMed IMS integrates your business operations with the delivery of care, and the optional Health Care Portal provides a communications link with your patients for prescription re-fills, appointments and more.

- And Many More
- Psychiatry
- Podiatry
- Orthopedics
- Neurology
- Sleep Medicine
- Ophthalmology
- Dermatology
- Internal Medicine
- Family Practice
- Urgent Care and Walk-in Clinics

AUTO CHECK-IN KIOSK

Save time by empowering patients to check-in on their own. This feature reduces workload on your staff so they can focus on more important tasks while helping to manage high patient flow quickly.

Patients can do the following:

- Verify and update demographic data
- Complete office forms electronically
- Indicate their health complaints and medical histories
- Set and adjust appointments

REPORTS

- Pick and choose between 100's of standard reports with ease
- Define frequently used reports and add them to 'My Favorites'
- Customize reports around any parameters your office requires

BAR-CODED ID CARDS

Register patients with accuracy and speed using fully automated Bar-Coded ID Cards.

- Reduce data entry and improve reliability
- Save time and manage high patient flow with faster check-ins
- Free up staff for more important tasks

LAB TRACKING

SuiteMed™ IMS supports HL7 interface to transfer diagnostic / lab orders electronically. Customized templates, pre-printed order forms and print or fax orders are easily managed.

- Easily track diagnostic / lab orders
- Conduct pre-import checks
- View comparative and graphical representations of lab data

PRESCRIPTIONS ELECTRONIC PRESCRIBING

SuiteMed IMS's flexible and comprehensive prescription / e-prescribing module easily tracks medication and refill histories. Complete with education integration, dosing, allergy and drug interactions and contra-indication checks.

- Maintain history of current / past medications and provide drug education
- Create frequently used individual or group medication templates
- Transmit prescriptions by print, fax or electronic prescribing

"Our monthly IT expenses were reduced over 87% after implementing SuiteMed™ IMS -- A huge savings for our company."

Rashmi Chauhan

IT Director, The Wellness Plan, Detroit, MI

BILLING

SuiteMed™ IMS's integrated billing module has everything you need and emphasizes workflow. It offers automated data entry from EMR generated Super Bills, strong validations, pre-checking of EMC, CMS-1500 or UB92 claims, automatic reconciliation (ERA), enhanced collections and extensive reports to keep finances on track.

- Increase cash flow through detailed user-friendly billing
- Has an extensive fee schedule
- Offers flexible CPT Templates, Macros and Parameters for fast, accurate billing
- Supports EMC, CMS-1500 and UB92 claims
- Conduct pre-claim analysis reducing claim rejections
- Accepts customized CMS-1500 templates based on insurance guidelines
- Print patient and insurance statements
- Utilizes Auto Reconciliation (ERA)
- Displays Batch Status Summaries
- Provides an interactive aging report
- Tracks unpaid claims using Rejection Analysis and allows you to easily re-bill claims
- Provides required high- and low- level claim reports

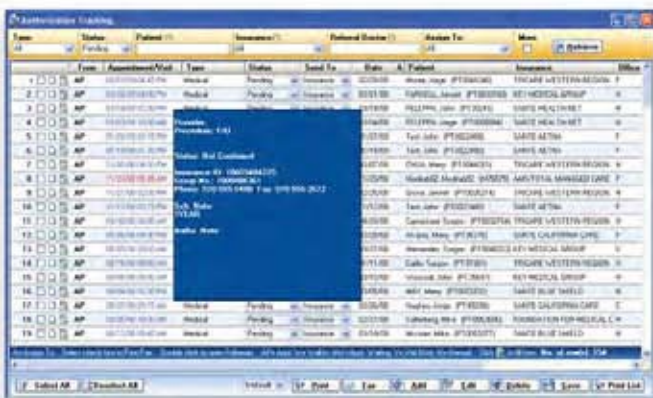

AUTHORIZATION / REFERRAL TRACKING

Authorization verification is provided for check-in and charge posting to ensure insurance reimbursements.

SuiteMed™ IMS can:

- Set authorization requirements by procedure and insurance
- Use insurance-approved, pre-printed authorization forms
- Reduce claim rejections due to missing authorizations

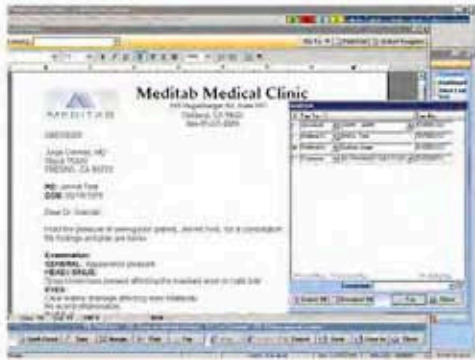

COMMUNICATION with 'MY TASKS' and 'REMINDERS'

A key benefit of SuiteMed™ IMS is better communication among your staff. Tasks and reminders significantly improve workflow and maximize your resource allocations.

Robust features include:

- Well defined communication through 'My Tasks'
- Extensive 'Reminder' set up to assign future tasks to designated staff
- Full integration with all other modules
- Improve work productivity, speed and accuracy

EASY, SECURE, ELECTRONIC, PERMISSIONS-BASED ACCESSIBILITY

LETTER WRITING & FORM FILLING

Quickly and easily generate letters and forms with customizable input fields that auto-populate with information.

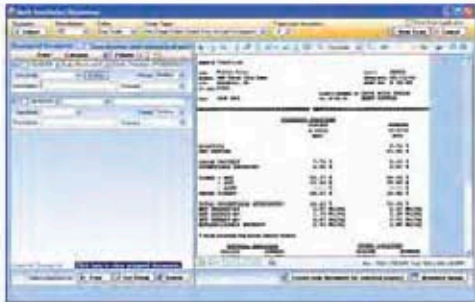

- Extensive mail merge capabilities
- Pre-defined letter templates
- Procedure and insurance specific, image-based forms
- Easy to use form filling tools
- Mapping of letter / form data fields
- Password protected signature security

FAX MANAGEMENT

SuiteMed™ IMS features an integrated fax server making sending and receiving faxes far more efficient, easy and less expensive.

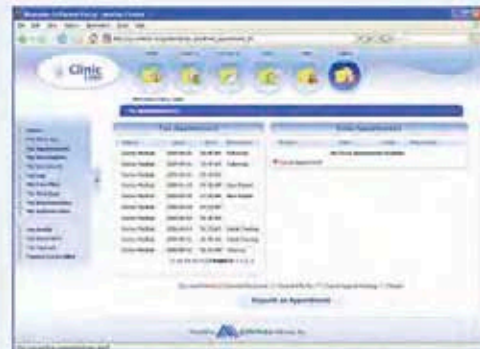

- Send / Receive Electronic Faxes
- Fax EHR, Rx, Lab Orders, Documents or Letters in seconds
- Save money on stationery and toner cartridges

DOCUMENT & IMAGE MANAGEMENT

Easily condense and organize paper flow into a user-friendly digital document filing cabinet that's both easy to access and secure.

- Customize file folders to organize documents
- Batch-scan documents to save time
- Work seamlessly with the Fax Management module
- Easily compile and retrieve patient documents / images

HEALTH CARE PORTAL

With the SuiteMed™ Health Care Portal patients can access a secure, personalized healthcare homepage from anywhere in the world.

- View Lab Results
- Access current health records
- View / update appointments and schedules
- Re-fill prescriptions
- Examine current and past statements
- Receive lab result interpretation
- Efficiently share healthcare documentation
- Manage referrals
- Receive and reply to notes
- all from the patients own personal computer.

*Easily organize patient information
into readily accessible digital
document filing cabinets, by patient.*

*Securely store and organize letters, visit notes,
faxes, labs, prescriptions and graphs that are
instantly "filed" into patient charts.*

Take advantage of Federal Stimulus Incentives and get SuiteMed IMS virtually for free.

**SuiteMed IMS, is an ONC-ATCB 2011/2012 Certified
Complete EHR for eligible professionals
assuring to meet ARRA Stimulus Incentive requirements.**

Physicians who implement a certified solution and become 'Meaningful Users' will be eligible for up to \$44,000 each in Medicare stimulus incentive payments. To get the maximum incentive payment, Medicare eligible professionals must begin participation by 2012. For 2015 and later, Medicare eligible professionals, eligible hospitals and CAHs that do not successfully demonstrate meaningful use will have a payment adjustment in their Medicare reimbursement. The Medicaid EHR Incentive Program is voluntarily offered by individual states and territories and may begin as early as 2011, depending on the state. Eligible professionals can receive up to \$63,750 over the six years that they choose to participate in the program. By taking advantage of these limited-time stimulus incentives, with SuiteMed's IMS you not only get the best EHR solution available . . . you can acquire it essentially for free.

Why a Certified EHR?

To ensure that the system you select will allow you to qualify for Meaningful Use federal incentive payments, select a solution that is EHR Certified. Since there are few benchmark measures available to provide a level of confidence regarding specific EHR functions an EHR certification is very important.

The ONC-ATCB certification has been developed by the federal government to certify that an EHR system meets the technical requirements needed for a provider to become a meaningful user of an EHR system. The use of an ONC-ATCB certified product is required to receive any federal government incentive money for the use of an EHR system. The ONC-ATCB certification test script is very specific to EHR criteria that qualified providers must meet in order to participate in the government incentive program. There are two types of ONC-ATCB certifications; one for Complete EHRs and one for EHR Modules. A Complete EHR certification for Stage 1 Meaningful Use means that the EHR product has met all 33 criteria tested. Why piece together modules to meet meaningful use, select a certified Complete EHR such as SuiteMed IMS. According to CMS, eligible professionals, need to have all the capabilities in their selected EHR even if they're not using all the EHR capabilities.
