

# SuiteMed™ IMS for Dermatology

## A fully integrated EHR / Practice Management solution specifically designed to meet the needs of the Dermatologist

SuiteMed IMS Dermatology EHR is an intuitive solution with advanced features enabling Dermatologists to automate their inefficient manual processes and achieve a true paperless environment. The system integrates the entire care delivery processes; enhancing the healthcare experience for you and your patients.

### Dermatology Templates and Workflow

Quickly and accurately document patient encounters using Dermatology-specific templates for exams, procedures and treatment. The template editor lets practices customize and add templates to suit individual preferences, allowing physicians to work as their particular practice and personal preferences demand. Templates feature intuitive pick-lists, and checkboxes to simplify documentation encouraging chart completion.

This fully integrated electronic health records (EHR) and practice management (PM) solution is ideal for the Dermatologist, electronically receive and send referrals, review faxed pathology reports and import photographs. This allows easy annotations directly to the patient visits on images and photographs at the point of care. Order / review pathology and lab results with a few clicks from anywhere in the EHR. At the end of the day documentation and letters are completed and sent. SuiteMed IMS Dermatology EHR allows you to leverage technology to better manage your practice and your patients' health.

## EHR Certified

### ONC-ATCB Certified 2011/2012 Complete EHR

SuiteMed IMS EHR v.14 is 2011/2012 compliant and has been certified by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ATCB, in accordance with the applicable certification criteria for Eligible Providers adopted by the Secretary of Health and Human Services. **This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.**

(9/30/2010; CC-1112-372910-1; NQF 0421, NQF 0013, NQF 0028, NQF 0041, NQF 0024, NQF 0038, NQF 0059, NQF 0064, and NQF 0061; Sybase SQL Anywhere 9.0.2 for 170.302(s), Sybase PowerBuilder Cryptography Library, Chilkat 3rd party Encryption Library for 170.302(u) and 170.302(v), and Internally Developed Patient Portal for 170.304(g))

## SuiteMed IMS for the Dermatologist

- Simplify patient visits with dermatology-specific templates for faster, more comprehensive documentation, storage and retrieval of detailed patient data.
- Enhance workflow with a paperless office. Gain better communications, greater efficiency and deliver better patient care.
- Improve overall revenue with accelerated reimbursement, automatic coding recommendations, decreased denials and increased patient flow.
- Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements and business analysis.
- Access patient information at the point of care, no more chart-pulls and no more misplaced records.
- Eliminate redundant paperwork, enable patients to complete forms with patient portal and in-office kiosk.
- Achieve interoperability and connectivity with other health care entities, pharmacies and labs for referrals, orders and results.
- Local ongoing support from a national team of industry experts -- SuiteMed Authorized Partners, dedicated to serving the needs and interests of dermatologist.
- Automate prescription writing, drug interaction and formulary checking with automatic alerts, and a fully-integrated drug database.
- Easily deliver patient education materials for dermatology-specific tests, procedures and disease management.

“ My bad-debt write-offs have been reduced over 90%. Pre-SuiteMed IMS, we had an average of \$80,000 per month outstanding in charges waiting for referral. Since implementation of SuiteMed IMS we now regularly maintain no more than \$400 per month. The Authorization tracking screen helps us in timely follow-up with the insurance companies. The billing module is great, in a way we now know what ensures timely payments. The aging reports help our billers set priority of follow-ups, making sure we work in the right areas. ”

**Julie Ziehm**  
Billing Manager

Mid Michigan  
Cardiology Associates

Dermatology templates allow for a significant reduction in the cost of dictation and transcription.

# SuiteMed IMS Features for Dermatology

- **Quick documentation with Dermatology-specific Templates**

Documenting conditions and symptoms is faster and more accurate using intuitive templates. Templates come pre-loaded and ready to use and can be easily customized.

- **Auto Check-In**

Auto Check-In Kiosk feature lets the patients Check-In on their own. This feature reduces workload and helps in managing a high patient flow.

- **E-Prescribing and Prescriptions**

The flexible and comprehensive prescription module tracks medications and refill history. Improve patient care with drug education integration, dosing, allergy and drug interaction and contraindication checks.

- **Authorization / Referral Tracking**

Reduce missing authorizations and claim rejections with authorization checking at Check-In and Charge Posting. Authorization requirements can be set by procedure and insurance criteria.

- **Bar Coded ID Cards**

Register patients with accuracy and speed using fully automated Bar-Coded ID Cards. Have accurate patient verification and correct critical data with just a swipe. ID cards can be printed from the scheduler, at check-in/out. Manage high patient flow with a fast and accurate check-in process.

- **Document & Image Management**

Condense and organize files into a user-friendly, easily accessible digital document file cabinet. Organize documents with customized folder tabs, the integrated fax management module allows you to fax from the system, scan in documents, images, driver licenses, insurance cards, etc

- **Lab Ordering, Reviewing and Tracking**

Supports HL7 interface so you can send or receive diagnostic lab orders electronically. Customized test templates and pre-printed order forms. Pre-import checking. Comparative and graphical representation of lab data saving physicians' time.

- **Plus so much more**

Scheduler, Patient Portal, Integrated Appointment Reminders, Auto Check-In, Check-In/Out, Lab Orders & Tracking, Letter Writing, My Tasks Dashboard, Health Maintenance Reminders, Dispensary, Document Management, Reports Preparation and Management, Fax Management, Scan Module, Billing & Collections, Auto Form Filler, etc.

## The SuiteMed Difference

SuiteMed's Ambulatory Electronic Health Record (EHR) and Practice Management software are fully integrated sharing a single database, to meet your unique clinical and administrative needs. Our solutions can be implemented as an integrated solution or separately as stand-alone applications and can be deployed as a client-server or web-hosted solution.

It takes more than just software to deliver success in today's complex practice. That's why SuiteMed ensures your success with local **Authorized Partners**, experienced in health IT and certified in our solutions.

**SuiteMed Authorized Partners** are with you all the way, from demonstrating SuiteMed IMS to implementation and beyond – your local ongoing single source solutions partner. As your Authorized Partner we're always available for fast on-site or phone support, training and personalized revenue improvement services so you can concentrate on practicing medicine not technology.

## Why a Certified EHR?

To ensure that the system you select will allow you to qualify for Meaningful Use federal incentive payments, select a solution that is EHR Certified. Since there are few benchmark measures available to provide a level of confidence regarding specific EHR functions an EHR certification is very important.

The ONC-ATCB certification has been developed by the federal government to certify that an EHR system meets the technical requirements needed for a provider to become a meaningful user of an EHR system. The use of an ONC-ATCB certified product is required to receive any federal government incentive money for the use of an EHR system. The ONC-ATCB certification test script is very specific to EHR criteria that qualified providers must meet in order to participate in the government incentive program. There are two types of ONC-ATCB certifications; one for Complete EHRs and one for EHR Modules. A Complete EHR certification for Stage 1 Meaningful Use means that the EHR product has met all 33 criteria tested. Whereas an EHR Module certification means that the product meets at least one of the 33 criteria tested.
